

VanTerra

Model Specifications

Ford E-350 SRW / E-350 DRW

The new VanTerra enhances everything you love about our previous models with the technology and innovation of modern day construction. The Turtle Top VanTerra is constructed on the Ford E-350 cutaway power train with either single or dual rear wheels. Multiple floor lengths give flexibility for a variety of paratransit and luxury options.

This model includes a true five-sided structure that sets the standard in industry safety. The aerodynamic exterior and comfortable interior feature an enormous passenger view window and sophisticated lighting packages. Occupant counts from 1 to 18 are welcome with ample seating making the new VanTerra truly the head of its class.
