

Terra Transit

TTLD Model Specifications

Ford Transit TTLD

The Terra Transit shuttle bus is an economical complement to Turtle Top's mid-size fleet and is available on the following cutaway chassis'; Ford-Transit, E350, E450, F550 & F600, Chevy 3500 & 4500, Freightliner S2C. The Terra Transit model offers a wide range of seating capacities for all non-CDL applications up to 39 passengers while maintaining the same safety standards that Turtle Top incorporates in all models.

This is a great option for any customer application and comes packed with numerous standard equipment features and a generous supply of great options. With a variety of floor plans, it will meet your needs for storage, seating preferences, and wheelchair accessibility. A full roll cage, quality construction, and a 5-year warranty make this the most affordable and best overall value choice for safe, dependable transportation.
